

PORTUGUESE QUANTUM COMMUNICATION INFRASTRUCTURE

ABOUT THE PROJECT

Portugal is one of the member states supporting EQCI, is grouping in PTQCI its national key stakeholders (implementing entity National Security Authority, telecom service providers, industry, and academia) towards the early deployment of an advanced quantum network supporting national quantum communication initiatives and their integration with existing communication networks, in what will be the Portuguese (PT) initial segment (land and space) of EQCI, plus its connection with Spain. PTQCI is supported by PT Armed Forces, Spanish EQCI, PTSPACE, and Austrian partners.

NATIONAL KICK-OFF MEETING

PTQCI project officially started on the 1st of January and had its national kick-off meeting on the 1st of February at the National Security Office in Lisbon. In this meeting were discussed the project's basic guidelines and activities.

EUROQCI DIGITAL PROJECTS KICK-OFF MEETING

PTQCI representatives were present at the EuroQCI DIGITAL projects Kick-Off Meeting which took place on 24th of January at the EU Commission in Brussels. The main objective was the discussion about the National QCI projects among all participant Member-States.

QUANTUM TECH DAY

This workshop took place on the 13th of March in the Instituto de Telecomunicações, headquartered at the campus of the University of Aveiro. The goal of the workshop was to discuss the present and future of quantum information technologies and to present an overview of the future national quantum network.

PETRUS PROJECT AND EU COMISSION MEETING

PTQCI's representatives participated in the PETRUS project and EU Commission meeting which took place on the 7th of June in Brussels. The main objective of this meeting was to meet with the other NatQCI coordinators to discuss the way forward for EuroQCI during the period 2024-2026.
